HADDAD TECH SOLUTIONS

Website Quick-Check

10 checks in about 10 minutes. Grab your phone, open your website, and tick each one that passes.

BRING IN CUSTOMERS

- [ ] **1. The 5-second test**
  A stranger can tell what you do, who you help and where, without scrolling.
- [ ] **2. One clear button**
  Every page has one main action (Call, Book, Get a quote) that shows on a phone without scrolling.
- [ ] **3. Contact in one tap**
  On phones, a tap-to-call link plus a text or form option for people who don't call.
- [ ] **4. Fast on a phone**
  Test your homepage free at pagespeed.web.dev and fix anything marked red.
- [ ] **5. Proof near the top**
  Real reviews, real photos of you or your work, and your service area.

ACCESSIBLE TO EVERYONE

- [ ] **6. Alt text on images**
  Every meaningful image has a one-sentence description of what it shows.
- [ ] **7. Captions on videos**
  Every video has captions. Many people watch with the sound off.
- [ ] **8. Readable contrast**
  Dark text on a light background. Body text should reach at least 4.5:1 in a free contrast checker.
- [ ] **9. Real link text**
  Links say where they go ("See pricing"), not "click here."
- [ ] **10. Labeled form fields**
  Every field has a visible label, not just gray placeholder text.
